Her comrades at the academy—in part envious of the top scores that had made her the first of their class picked for a mission—had ribbed her mercilessly about flying a mission that would come within a few kilometers of the moon without landing. Eleven thousand kilometers? TheA. Okay, then, if Karen was dead, then she didn't have to wear a spacesuit. She could afford nothing but the bare necessities. The darkness had spread up to her knees.

Because its prevalence is higher in individuals with a family history of the
