Find a top agent in your area. Still, you have to consider hallways, closets, pantries and other spaces in the mix. However, if you sell it later, the higher documented sqft will add more value. Should the floor space of garages and porches be included? Assign a unit of measure to each square on the paper a foot, for example and measure to the nearest tenth of a foot. The length of the bottom part of the gable will be 28'. How it works? Measure perimeter We now also include the perimeter of the shape that you draw along with the area. You could list it as 3, square feet with 1, square feet of unfinished basement and a foot garage.
